## OBJECTIVE

Aspiring Full Stack Web Developer with expertise in HTML, CSS, JavaScript, and ReactJS, seeking to build responsive, user-friendly web applications. Eager to learn new technologies and contribute to innovative projects with clean, efficient code.

## SKILLS

- **Frontend Development:** HTML5, CSS3, Tailwind CSS, JavaScript, React.js, Next.js, DOM Manipulation.
- **Backend Development:** Node.js, Drizzle-ORM, Authentication (JWT, OAuth, Firebase Auth).
- **Databases:** PostgreSQL, Firebase.
- **Performance & Scalability:** Redis.
- **API Development:** RESTful APIs, Third-Party API Integration, API Optimization.
- **Languages & Tools:** Python, TypeScript, Git, VSCode.

## PROJECTS

### AI Content Generator Website

#### Description:

- Developed an AI-powered content generation platform that creates high-quality articles, blogs, and social media posts tailored to user-provided prompts and keywords.
- Built using **Next.js**, **React.js**, and **Tailwind CSS** for a seamless, responsive, and visually appealing user interface.
- Integrated **Clerk** for secure authentication, **Drizzle-ORM with Neon** for efficient and scalable backend operations, and **Razorpay** for seamless payment processing.
- Leveraged the **Gemini API** for advanced natural language processing and content generation capabilities.

**Technologies Used:** Next.js, React, Tailwind CSS, TypeScript, ShadCN, Drizzle-ORM, Neon, Razorpay.
